Why HiB Novum makes the difference...

Home is where the heart is and, when it comes to the bathroom, we all need a space that soothes the body and stirs the soul. That's why we created HiB Novum – to help homeowners find their signature bathroom style and provide the 'wow' that comes from a beautifully styled interior.

We believe in perfection made personal. Our extensive range of meticulously crafted bathroom furniture has an eye-catching option for everyone. Whether your dream bathroom is cool and contemporary, traditional and timeless, or artfully avant-garde, HiB Novum lets you create it, without compromise.

How we can give your bathroom the wow-factor...

We know that bathroom furniture is more than just storage, it's the foundation for your entire interior design.

HiB Novum is about finding the balance between substance and style – creating a bathroom you love, that fits around your lifestyle. For those who value individuality, our mix and match countertops create a bespoke look for every household. From soft-close doors to a choice of ceramic or mineral marble basins, each detail of every HiB Novum product is designed to provide a show-stopping bathroom experience, no matter what the space.

For furniture that keeps your bathroom calm and clutter-free, while representing the style of your home, choose HiB Novum.

Tranquil Compact Bathroom Range - page 40

Discover your style...

Below we have highlighted three of HiB's latest looks. They are inspired by current trends and add a dash of 'wow' to any bathroom.

Industrial

Industrial design is inspired by modern warehouse conversions. It has a distinctly raw aesthetic, which makes features of its aged wood and exposed metalwork.

The combination of modern and vintage is a hallmark of this trend, which creates a timeless appearance with many design possibilities. Reminiscent of understated, but beautifully designed, Scandinavian interiors, this is a style that is as much about simplicity and function as it is about looks.

Aeon Bathroom Range - Page 50

Link

Link is designed to complement the sleek and stylish Tranquil range. The Link component comprises of open niches that are designed to sit alongside and between the wall-mounted Tranquil units. These create extra storage space and provide an opportunity to customise the look by displaying coordinated accessories.

The Link components are available in White or Anthracite, to coordinate or contrast with the Tranquil units. Juxtaposed together they create a coordinated and unified aesthetic.

Link - Page 46

Kingsbury Cloakroom

Meet the latest addition to the Kingsbury range: Kingsbury Cloakroom. A marriage of traditional style and contemporary cool, at a scale that suits smaller spaces.

Classic, shaker-style doors give this line a more traditional aesthetic, while its slimline dimensions make it the perfect fit for any small bathroom, cloakroom or ensuite. The units are available in a choice of three stunning finishes and the set can be complemented with the addition of a high quality ceramic basin.

Creating your **beautiful** bathroom...

Close the door, light the candles and indulge in an invigorating soak. Your bathroom is your sanctuary, which is why its design should reflect your unique taste. Create a bespoke designer look with a choice of sizes, shapes, styles, materials and finishes — with storage to match. From edgy vessel basins to luxury countertops, we have those special touches to make your bathroom beautiful.

Size

Small, yet perfectly designed...
Consider our compact ranges, such as **Tempt**, **Tranquil**, **Reveal** and **Kingsbury Cloakroom**.

Big and beautiful...
Make the most of it with spacious units that offer abundant storage, such as **Aeon** or **Vantage**.

Basin and Countertops

Modern mineral marble or classic ceramic? Your choice. Choose your basin from a selection of rectangular and shaped designs, all of which fit perfectly onto your favourite unit. Or, bring boutique hotel vibes to your home with a countertop and trendy vessel basin.

Finish

Choose your favourite finish from a choice of on-trend tones and textures. They're also ultra-hard-wearing, which will ensure your bathroom stays looking new for years to come. Keep everything coordinated or mix and match for the ultimate colour combination.

Storage

Store your toiletries, towels and tissues in one of our matching tall or midi units.

Remember... you can add that final wow-factor with elegant underlighting - see page 112.

Kingsbury

Kingsbury

Kingsbury takes the best of traditional style and marries it with contemporary cool, for a classic look that will stand the test of time. Reminiscent of grandiose old-English estates, Kingsbury conjures a sense of vintage elegance, complemented by unmistakably modern luxuries, such as soft-close doors.

Compact design and a tasteful underslung basin make this range as versatile as it is visually arresting. Kingsbury is available in three sophisticated finishes, offering an option for every interior design.

Key features

- Floor standing compact units in 50cm and 60cm widths.
- Available in three finishes: Classic White, Dove Grey and Henley Blue.
- Quartz worktop with upstand.
- Soft-close for that touch of luxury and gentle closure.
- Inner shelf.
- Chrome handles.
- Optional plinth infill to hide pipework.
- Complete the look with a co-ordinated mirrored cabinet or traditional mirror and back-to-wall unit.

Lighting Regulations

All installations must comply with guidelines which are based on a zonal concept. The diagram below illustrates this concept and must be followed to ensure the safe installation of electrical appliances in the bathroom. These regulations apply to domestic installations only. Installations must be made in accordance with the current IEE wiring regulations and relevant building regulations. HiB recommends that all electrical bathroom products should only be fitted by a suitably qualified, Part P registered electrician.

Zone 1 refers to the area above the shower up to a height of 2.25 metres and requires a minimum rating of IP44 or higher and if the fitting is 240V a 30ma RCD must be used to protect the circuit.

Zone 2 covers an area 0.6 metres wide immediately next to, and all round zone 1. Wash basins should also be treated as zone 2. The minimum rating here is IPX4.

Outside Zone has no special requirements, unless water jets are likely to be used for cleaning purposes.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom's light is rated IP65, then the 6 means its 'Protected against Dust' and the 5 means its 'Protected against Water Jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, e.g. Tools, dust, fingers, etc.

0	1	2	3	4	5	6
No protection	Protected against solid objects with a diameter of 50mm and over (e.g. Accidental insertion of hands).	Protected against solid objects over 12mm (e.g. jointed fingers).	Protected against solid objects over 2.5mm (tools).	Protected against solid objects over 1mm (small wires).	Protected against dust - limited ingress permitted (no harmful deposit).	Totally protected against dust.

Second numeral - protection against ingress of liquids.

0	1	2	3	4	5	6	7	8
No protection	Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect.	Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.	Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.	Protection against splashing. Liquid splashed from any direction shall have no harmful effect.	Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.	Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.	Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.	Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.
