FIRES & FIREPLACES COLLECTION

40" Elsham Electric fireplace in Pearlescent Cashmere finish (page 10)

Welcome to bemodern®

Welcome to this very special selection of beautiful fires and fireplaces.

Mankind's fascination with fire has always generated a desire to create a central area of warmth and security in the home, but today our theme is very much about modern living.

The ambience a new fireplace can bring to a home can be a life changing experience for the family. A wonderful Be Modern fireplace will give you years of pleasure; a place to entertain friends, to reflect or just to relax.

Browse through this collection and you will journey through time with our designs; from the traditional,

period styles to the cutting edge contemporary creations, this compilation includes it all.

We guarantee you'll find your perfect fireplace. So relax, unwind and imagine your makeover crowned with a beautiful Be Modern fire or fireplace.

Contents

INSET GAS FIRE COLLECTION

24 - 33

Once you have chosen your surround, give it a warm glowing heart with a Be Modern inset gas fire

TECHNICAL INFORMATION

34 - 35

THE Marble COLLECTION

Of all the materials to create a fireplace with, micro marble is surely the most luxurious, providing the most beautiful finished piece.

Be Modern micro marble is hand selected and hand finished to perfection. With a consistent pattern micro marble guarantees a smooth and high quality finish. It is made from pieces of real marble finely crushed and bonded together with resin to obtain a consistent surface.

Complete with surround, back panel and hearth, we guarantee you will find the ultimate adornment for a luxury home.

The latest LED technology emulates the shimmering and smouldering effect of a natural flame to a degree that will amaze you. Our energy efficient flame effect only setting means that you can enjoy the flame effect all year round.

LED technology benefits:

- ◆ **Energy Efficiency***
Running the flame effect only costs less than £4 per year
- ◆ **Realistic Flame Pattern**
LED technology provides a clean, flicker-free realistic flame effect
- ◆ **Long Life***
The expected life of our LED's is in excess of 30 years

* (Assuming 5hrs / 7days per week usage. NPower Standard electricity tariff for NE32 3BE, 12/04/18)

THE *Gas Fire* COLLECTION

With a Be Modern gas fire you are adding a true centrepiece which naturally draws people together, creating a relaxed ambience that enhances the quality of life at home.

Now that you have chosen your perfect surround, it's time to give it a warm glowing heart. Choose from our complete Cast fascia Collection, Design Fascia Collection or Classic Collection with a choice of fret options. Or simply choose either the Cast Abbey Arch or Avantgarde from our complete range.

Each of our timeless designs offer different variations which you can refine to your tastes, be it contemporary or traditional.

FINISHES

Choose from a range of striking finishes such as Brushed Steel, Brass, Chrome, Black or Nickel to ensure that your fireplace is the perfect match to your interior and style.

Classic Inset Gas Fire

Deepline High Efficiency glass fronted inset gas fire and Classic Black trim with Maisie fret in Brass / Black. Available in a variety of finishes (see page 29). Featured in the 52" Mataro micro marble surround (see page 5)

THE PERFECT FIT

BRICK CHIMNEY | (CLASS 1)

A conventional chimney for use with a solid fuel or gas appliance is easily recognisable, as the stack rises above the roof line and usually has a pot or gas terminal on top. With this type of chimney you can install all our gas fires.

PRE-FABRICATED FLUE | (CLASS 2)

Identifiable by a metal flue and terminal on the roof, this flue system is suitable for all Be Modern gas fires.

PRE-CAST FLUE

Built from concrete or clay blocks usually within the wall cavity. A pre-cast flue can be identified by a ridge vent on the roof line.

Class 1

Class 2

Pre - Cast Flue

A SAFE FIRE IN YOUR HOME

QUALITY APPROVED

For your reassurance, all Be Modern fires are made in accordance with Quality Management System Standard ISO 9001-2015. We have a range of fires available to suit your chimney or flue.

FLAME FAILURE DEVICE

All gas fires are fitted with a device which ensures that in the event of the flame going out during operation, the gas supply to the fire is cut off.

OXYGEN DEPLETION SENSOR

All fires are fitted with an Oxygen Depletion Sensor that shuts off the gas supply if the oxygen level is too low in the room or if there is a blockage in the chimney or flue.

Only use a **Gas Safe Engineer** to fit or service your gas fire.

FIRE ADDITIONS AND ACCESSORIES

SMARTSLIDE CONTROL

All gas fires* are available with a Smartslide Control feature to turn the fire on and regulate its flame level. Mounted on the side of the fire, the control provides convenience of operation.

SMARTSLIDE HANDLE

The Smartslide Control handle is available in Black, Brass or Chrome finish. Black handle supplied as standard.

EASY GRIP HANDLE

An easy grip handle is a simple attachment to the handle allowing convenient control of fire ignition and heat settings.

MANUAL CONTROL

For the traditional feel of a gas fire choose one of our open fronted models with manual controls. Concealed behind the fret of the fire, the controls are easy to access.

XTRA CANOPY

Extra efficiency comes in the form of a canopy kit designed to raise the efficiency of the fire by up to 8%. the Xtra canopy is available on Slimline Radiant and Deepline models only.

OPTIONAL SPACER

The optional spacer* fits to the rear of the fire and reduces the depth by 25mm. It is ideal for use with pre-cast flues where there is insufficient space.

*Excludes Cast Fascia and Balanced Flue

Cast Fascia Collection

Deepline Convactor open fronted inset gas fire with Cast fascia in Nickel. Available in a variety of finishes.
Featured in the 52" Andorra micro marble surround (see page 4) | Width 510 x Height 630 x Inset Depth 198mm

CAST FASCIA COLLECTION

The Cast Fascia Collection has a simplicity that will be perfectly in keeping with any fire surround of quality and will add value to any well-loved room.

1) CHOOSE YOUR FIRE

Model	Flame Display	Control
Slimline Radiant	Open Fronted	Manual or Smartslide
Deepline Radiant	Open Fronted	Manual or Smartslide
Deepline Convector	Open Fronted	Manual or Smartslide
Mid Depth H.E	Glass Fronted	Smartslide
Deepline H.E	Glass Fronted	Smartslide
Balanced Flue	Glass Fronted	Manual or Smartslide

2) CHOOSE YOUR CAST FASCIA

Cast Iron has long been a material of choice for fires because of its heat retaining properties.

The Cast option is unmistakably sturdy. With many defined characters, it also has an elegant side shown by the tapering trim and slender bands across the fret. Choose from four alternative finishes for that final flourish.

Chrome

Black

Nickel

Balanced Flue glass fronted inset gas fire with Cast fascia in Brass

CARING FOR YOUR FIRE

Our range of gas fires have been designed to provide you with a clean and efficient heat source as well as years of hassle-free operation. To ensure your fire provides you with maximum enjoyment we have provided the following guidelines for caring for your fire.

- 1. Only use a Gas Safe Engineer to fit or service your gas fire.
- 2. Never attempt to remove or service the gas fire yourself.
- 3. Your gas fire should be regularly serviced and safety checked every year.
- 4. If you think there might be a gas leak or notice any signs of carbon monoxide, act quickly and follow the advice for gas emergencies.
- 5. If you are in any doubt regarding your gas fire, speak to a Gas Safe Engineer or contact your local fireplace retailer for assistance.

UNDER MANTEL LED LIGHTING

Under mantel LED lighting highlights every natural detail of micro marble, giving your whole room a soft illuminated background. The lighting is concealed in the top recess of your surround creating an aesthetically pleasing yet energy efficient feature as an option on all models across the Marble range.

HEARTHES

BN - Bullnose
SL - Standard Lipped
BV - Bevelled

For over 50 years Be Modern has been manufacturing fires and fireplaces to the highest of standards.

All gas fires are rigorously tested and checked by our internal Quality Control Department to the latest ISO standards before being sent to our approved retailers.

All gas fires are supplied with a 5 year[†] warranty providing you with the reassurance and peace of mind that you have purchased and installed a high quality product.

All gas fires are supplied with a 5 year warranty
Terms & Conditions apply

Specification correct at time of print

All fires are fitted with an Oxygen Depletion Sensor that shuts off the gas supply if the oxygen level is too low in the room or if there is a blockage in the chimney or flue.

Only use a Gas Safe Engineer to fit or service your gas fire.

Complete Inset Gas Fires
